Exploring the complex issues of poverty+ developing an action plan

You're invited to join us for a Poverty Awareness for Community Engagement (PACE) workshop. This new curriculum was developed to explore the complexity of poverty issues; including power and privilege, social class, and racism. It is a continuum of educational resources that address issues of poverty in our own communities through a Call to Action. This non-prescriptive interactive approach to poverty education involves personal reflection, raising awareness, increasing knowledge and skill-building.

PACE takes us beyond 'Bridges out of Poverty' to explore the complexity of poverty issues.

Workshop Objectives:

Participants will:

- ◆ Learn how poverty is defined
- ◆ Increase understanding of poverty, diversity, and social class issues
- ◆ Identify skills needed to work more effectively with low-income clients
- ◆ Develop an outline for a personal, professional, or agency action plan to address issues of poverty within your circle of influence.

Registration limited to 35 people!
