Benefits of Childhood Developmental Screening:

Benefits for Children:

- Identifies children at-risk for developmental delays.
- Detects a child’s strength and needs.
- Encourages children to show their parents all the new and exciting things they can do as they grow.

Benefits for Parents:

- Helps parents understand more about their child’s development.
- Empowers parents to support and encourage their child’s growth.
- Helps parents to bond with their child(ren).

Benefits for Teachers:

- Measures child’s progress in specific areas.
- Helps teacher’s understand a child’s needs.
- Assists teachers to support a child’s growth and development, that is meaningful for that child.

Benefits to the Community:

- Improves children’s health and developmental outcomes – saves tax payers money.
- Helps communities to identify needed services to meet families’ needs.
- Helps us keep our promise that no child will enter school with an undetected developmental delay.
