Question:

Where can I get more information on UW Cooperative Extension's web-based Planning and Results system?

Answer:

There are several ways to learn about the web-based Planning and Results system:

- 1 A copy of the **video** entitled "Web Based Planning and Reporting" was mailed to every county Extension office department head. The Milwaukee County copy is in the Resource Room on the bookshelf with the computer books and videos.
- 2 Digital copies of the **user manuals** were also sent to every county on a CD enclosed with the video mentioned above. At the Milwaukee County office, the contents of the CD are on the network at P:\UWEX\PlanningResults.
- 3 If you do not have access to the CD, you can download the user manuals and other materials from the Planning and Results **web site**:

<http://www.uwex.edu/ces/prs/>

- 4 The CE Technology Services **Help Desk** staff can answer your questions about the Planning and Results system. Call them at 800-760-7610 or send email to: helpdesk@ces.uwex.edu
